

S.S. 2/3

Dear Librarian and Booklover,
This fantastic book will be sent to you for inspection, reading and possible acceptance - without any obligation or cost on your part.

FIRST PAGE ON THE INVENTION

THIS BOOK

tells the greatest Crime Story ever told.

THIS BOOK

tells of the Criminals who started their Crimes with Words — and did so since Words were invented by Men for manipulating Men with Words.

THIS BOOK

tells of the Miseries, Murders and Massacres of untold Millions of Men, Women and Children who died because of Words.

THIS BOOK

tells of the gigantic Fraud with Words committed right NOW on helpless Mankind who have not been taught how to see through the Fraud with Words.

THIS BOOK

tells of the Power that moves this Universe, and of our Purpose and Destiny in it, and how our Wordmongers have obscured what any Boy and Girl can see and understand, once it has been pointed out to them.

THIS BOOK

tells of the Invention that can stop the Criminals and their Crimes, the Discovery that can give tormented Mankind a new Hope, the Invention and Discovery that will change our lives.

Please read the story on the book cover (overleaf)

You may return it in good shape within 1 month, the postage being paid by the publisher.

This is not a money making venture. The book is sent out to reach people who are despairing about the future of humanity and their own future.

The two sample pages may show you that this book contains something immensely and intensely practical which you can use in your life from the very day you commence reading.

Will you give this book to those who need it most - our teenagers?

Then fill in the attached post-paid card and receive the book at no cost to you.

Distributed and sold below cost (432 pages) for U.S. \$5.95 (library price less 15% = \$5.06) plus 70c mailing by

Semantography - Blissymbolics Publications (Non-Profit)
2 Vicar Street, Coogee 2034
Sydney, Australia.

FIRST PAGE ON THE DISCOVERY

THE BALL, THE EGG, AND YOU

Take a golfball and an egg. Both look similar, both contain atoms. Now keep both warm for a few weeks, and something incredible happens within the egg. By some mysterious magic, the atoms of the egg build a perfect aeroplane, called a bird, equipped with the most amazing mechanical, physical, chemical and electronic apparatuses.

This means only one thing: LIVING ATOMS THINK. They know what they are doing, and they do it better than the best human engineer. But the thinking of living atoms contains two factors which are rarely found in the thinking of living men. Living atoms CO-OPERATE with each other when they build their aeroplane. And they HELP each other when their aeroplane gets damaged. They rebuild the broken bone, the broken muscle, the broken feather until all is well again.

LOGICAL THOUGHT, CO-OPERATION, and MUTUAL AID, we find them in the atoms of an egg. But we cannot find them in many men of many communities. They DON'T think logically, they DON'T co-operate with each other, and they DON'T help each other. Instead, they destroy each other, first with words, then with weapons.

Now, let's take you. When you are injured, the cells in the central switchboard of your brain send out telegrams over the electric nerve network. Medicines are manufactured and shipped through the bloodstream to the scene of the accident. Ambulances, doctors and nurses arrive to help the injured brother cells. Then repair cells arrive and begin to rebuild the broken bone, the broken muscle, etc., etc., as they do in any damaged living bird, fish, animal, any creature which came out of an egg.

Come to think of it—you, too, came out of an egg. How did it happen?

WHAT IS BLISS' INVENTION?

Three hundred years ago, the great Leibnitz prophesied that one day someone will invent a method so simple that even children will learn to recognize (and avoid) those dangerous words that destroy the peace in the homes and in the nations.

Now eminent scholars have agreed that Bliss has done just this. It has fantastic advantages. It will change our lives.

WHAT IS BLISS' DISCOVERY?

Bliss discovered ethical communities where all members help each other driven on by a mysterious cosmic force of ethics. They have no ambiguous and abusive words. Read p. 95-109 "Is Ethics perhaps a natural Force like Electricity?"

It is, and this discovery will change our lives.

"But why are our human communities so cruelly unethical?" asked Bliss. "Why do we kill each other in wars?" Dangerous words? But then, how did human communities live before those dangerous words dawned in the minds of primitive men?

Bliss voyaged into the dawn of time and made an archeological discovery. Read p. 264-274 "The Brain Disease caused by Words, and the most important archeological Discovery ever made."

You may then agree that **NO DISCOVERY IN ANY SCIENCE IS MORE IMPORTANT THAN THIS DISCOVERY. IT WILL SURELY CHANGE OUR LIVES.**

Was Bliss the first man to make these discoveries? Hell no! He found later that eminent scholars have hinted at them before. But many academics disregarded and discredited them. Naturally! They don't like to be told that they are teaching false and disastrous theories. After reading what they have done to humanity—and still do, you too may become a rebel like Bliss.

WHAT THEY SAY ABOUT BLISS' WORK

"An important service to mankind" (Bertrand Russell). "Something of real importance" (Julian Huxley). "Bliss' heroic work" (Professor Oliver I. Reiser to the American Association for the Advancement of Science). "Bliss has done some extraordinary fundamental thinking" (Professor R. Buckminster Fuller). "Fascinating" (Professor Lancelot Hogben). "We have been charmed and fascinated. We have also strongly felt in Bliss a sincere devotion to an earnest purpose" (Professor A. G. Mitchell, as chairman of Bliss' first lecture at Sydney University). "You couldn't forget having heard Bliss. He delighted his audience" (Students in their journals at Sydney University). And many more such comments.

But others think otherwise about Bliss:

"The invention of an obscurantist.

The latest charlatantry of philosophical idealism."

(Communist Review, Sydney)

THE INVENTION AND DISCOVERY

that will change our Lives

by Charles K. Bliss

a Scientist in Rebellion
